

MEDICAL EXAM

Medical examinations are required by U.S. Public Health Service regulations. **Applicants should schedule their medical exams for at least five working days before their visa interview. The applicant must choose a doctor from the list below and call to make an appointment. At the exam, you must present your appointment letter and passport.**

The cost of the medical exam for adults 15 and over is \$95.00 (which includes exam and lab fees). For children 14 and under, the fee is \$55.00. Please pay with exact change in dollars (or the equivalent in Peruvian Nuevo Soles) on the day of the exam at the doctor's office. The examination includes a complete physical checkup, pulmonary x-ray, blood test and other examinations as requested by the doctor.

Human Immunodeficiency Virus (HIV) Testing: The medical exam requires a blood test to detect human immunodeficiency virus (HIV) antibodies. Applicants who test positive are not eligible to receive an immigrant visa without a waiver.

Vaccines: The vaccinations listed below must be current -- or the doctor must certify that the vaccination is medically inappropriate -- before a visa can be issued. The doctor will verify that vaccinations are up-to-date, but vaccinations are only performed for an additional charge.

NOTE: New vaccinations must be certified by one of the doctors listed below. Please DO NOT obtain vaccinations before seeing one of our doctors.

Required Vaccinations:

- | | |
|----------------------------------|--------------------------|
| 1. Mumps | 10. Varicella |
| 2. Measles | 11. Pneumococcal |
