MOST IMPORTANT

No assurance can be given in advance that a visa will be issued. A consular officer can make a decision only after the formal application and all documents are reviewed, and that officer has personally interviewed the applicants.

IMPORTANT: Beneficiaries should not make any travel arrangements for departure, dispose of personal property or make other life changes until the visa has been issued. An immigrant visa is valid for a maximum of six months from the date of issuance. Applicants must travel and apply for admission to the United States before their immigrant visas expire. The validity of your immigrant visa will be limited with the validity of your medical report.

This office will make every effort to expedite the process. However should complications arise, applicants may be required to return to this office or furnish additional information.

Any child age 16 or older who is included on his or her parents' passport but whose photograph is not included in such passport, must obtain a separate passport.
