

MEDICAL EXAMINATION

In order to conduct the physical examination of visa applicants in whose cases such examinations are necessitated by the United States immigration regulations, the Embassy has appointed a panel of medical practitioners whose names and addresses are given below. Please call on any one of the physicians named to obtain an appointment. The medical forms will be provided by the panel physician. The forms and a copy of the chest x-ray photograph together with serological and any other reports will be given to you to be hand carried to the Embassy on the day of your visa appointment.

To facilitate proper identification, the applicant is advised to produce his/her passport or similar travel document at the time of the examination. All fees will be borne by the examinee himself.
