

Joint Department of State/Department of Homeland Security Report: Status of the Iraqi Special Immigrant Visa (SIV) Program

Introduction

The Department of State (State), Department of Homeland Security (DHS), and all other U.S. government departments and agencies involved in the U.S. Special Immigrant Visa (SIV) program have the highest respect for the men and women who take enormous risks in helping our military and civilian personnel. We are committed to helping those who have helped us. The U.S. government has devoted resources to reducing the amount of time required to complete the SIV process, authorized under section 1244 of the National Defense Authorization Act for FY 2008, as amended, and we continue to strive for even greater improvements to the process.

As of September 16, 2014, State has issued more than 1,400 SIVs to Iraqis who were employed by or on behalf of the U.S. government in Iraq and their family members in this fiscal year. This decrease in SIV issuances, as compared to FY 2013, is due to the multi-agency effort in the second half of FY 2013 that ensured that all approvable Iraqi principal applicants were issued visas before the program temporarily ended on September 30, 2013. The decrease in issuances is not due to the current security situation in Iraq, and SIV cases continue to be processed at U.S. Embassy Baghdad. A total of 3,550 Iraqi principal applicants and their family members were issued SIVs in FY 2013. The Department of State's authority to issue SIVs to Iraqi nationals under this SIV program was subsequently extended through the National Defense Authorization Act for FY 2014 which allocated 2,500 visas for Iraqi principal applicants as of January 1, 2014. This program will end when all visas have been issued.

SIV issuance numbers through the third quarter of FY 2014 are available on travel.state.gov.

Average Wait Times for Each Step of the SIV Application Process

All steps in the SIV application process are outlined below and include the current average processing time spent by all U.S. government entities. This captures total U.S. government processing time, beginning with the applicant's initial submission of documents to the Department of State's National Visa Center (NVC) and ending with the date of visa issuance at Embassy Baghdad. The figure does not capture those steps in the SIV process that are solely dependent on the

applicant's initiative and outside the control of U.S. government entities. SIV applications move through 14 steps in these four stages: Chief of Mission Application Process; I-360 Adjudication; Visa Interview; and Visa Issuance.

Special Immigrant Visa (SIV) Processing Steps****

	3	NVC sends completed COM package to U.S. Embassy Baghdad.	1
	4	U.S. Embassy Baghdad reviews COM application and makes a decision to approve or deny.	40 (if all required documents are present)
	5	U.S. Embassy Baghdad advises NVC if COM application is approved. NVC immediately sends approval letter to applicant. (If any documents reveal that applicant does not qualify for the program, the COM application is denied.)	5

**Line 13 totals include data for all cases issued as of September 10, 2014. Processing time for cases that remain pending cannot be calculated without a completion date.			
***USG processing times do not factor in applicant-controlled steps. Overall processing times are greater than USG processing times.			
****Processing steps are for SQ SIVs authorized under section 1244 of the National Defense Authorization Act for FY 2008, as amended.			

Applications Pending Longer Than Nine Months

Provided an applicant has acted promptly in each of the applicant-controlled steps that precede step 13 of the SIV application process, the reason for any applications to be pending longer than nine months would be for completion of administrative processing in step 13 of the SIV application process. Process improvements have resulted in improved efficiencies at step 13.

Applications Pending at Each Stage of the SIV Application Process

As of September 12, 2014, the following numbers of Iraqi applicants are pending in one of the application stages:

- 1,799 principal applicants have Chief of Mission (COM) applications pending at the NVC (Step 1). These applicants have submitted some, but not all, of the documents required to apply for COM approval. COM applications with all required documents are sent to Embassy Baghdad within one business day. This figure reflects the number of applicants who have taken action on their applications for COM approval within the past 120 days. COM applications must be submitted by September 30, 2014, in order to proceed with SIV processing.

- 26 principal applicants have Form I-360 petitions pending with U.S. Citizenship and Immigration Services (USCIS) (Step 7).
- 67 principal applicants and 155 family members are currently scheduled for visa interviews (Step 11). Interviews are scheduled approximately 60 days in advance. Applicants utilize this time to gather any remaining documents required for their interviews, undergo medical examinations, and prepare for travel to Baghdad. Three principal applicants and eight family members are waiting to be scheduled for visa interviews (Step 11). Most Iraqi applicants will be interviewed at Embassy Baghdad as they reside in Iraq. Applicants residing outside of Iraq will be interviewed at the U.S. Embassy or Consulate that processes immigrant visas for their countries of residence.
- Applications for 443 principal applicants and 44 family members are undergoing administrative processing (Step 13).

Number of SIV Applicants in Third Quarter of FY 2014

The following chart shows the number of Iraqi applicants who applied for SIVs in the third quarter of FY 2014 under section 1244 of the National Defense Authorization Act for FY 2008, subsequent to receiving COM approval:

Month	Principal Applicants	Family Members	Total
April	76	164	240
May	55	93	148
June	57	142	199
Total	188	399	587

Applicants Denied or Pending at Each Stage of the SIV Application Process

At the end of the third quarter of FY 2014 on June 30, 2014, the following numbers of applicants were denied or pending at one of the application stages:

- Zero principal applicants did not qualify to receive COM approval or had their approval revoked in the third quarter of FY 2014 by the COM designee in Embassy Baghdad.

- 22 principal applicants had their Form I-360 petitions denied by USCIS during the third quarter of FY 2014.
- As of June 30, 2014, 30 principal applicants and 48 family members had scheduled visa interviews. Eleven principal applicants and 28 family members were waiting to be scheduled for visa interviews.
- As of June 30, 2014, applications for 518 principal applicants and 60 family members were undergoing administrative processing.

Reasons for COM Denial

As reflected in denial letters sent by the COM designee at Embassy Baghdad, denial of a COM application generally occurs for one or more of the following four reasons:

- Failure to establish employment by or on behalf of the U.S. government. The Department of State has considered the employment requirement satisfied in the case of an alien hired under a direct-hire appointment or the employing agency's personal services agreement (PSA) or personal services contract (PSC) authority. State has also considered Iraqi nationals hired by and paid through a U.S. government contractor or subcontractor to meet the broader criteria for employment "by or on behalf of" the U.S. government. State has not considered the requirement under 1244 to be "employed by or on behalf of the United States government" satisfied in other situations such as individuals working as an employee of an entity funded by a grant or cooperative agreement with the U.S. government, or self-employed businesspersons who operate under a license with the U.S. government.
- Failure to establish at least one year of employment by or on behalf of the U.S. government between March 20, 2003, and September 30, 2013.
- Failure to establish providing of faithful and valuable service to the U.S. government. Applicants denied for this reason generally have not obtained the requisite positive recommendation or evaluation. In some instances, employment by or on behalf of the U.S. government was terminated for cause.

- Derogatory information associated with the applicant that is incompatible with the requirements of the SIV program. This reason for denial generally relates to information that the applicant engaged in an unlawful, unethical, criminal, or terrorism-related activity.

Prior to enactment of the National Defense Authorization Act (NDAA) for FY 2014 on December 26, 2013, the burden of establishing that an applicant had experienced or was experiencing an ongoing serious threat as a consequence of employment by or on behalf of the U.S. government rested solely with the applicant. The NDAA authorized consideration of a credible sworn statement depicting dangerous country conditions, together with official evidence of such country conditions from the U.S. government.
