PHOTO REQUIREMENTS FOR U.S. PASSPORT/ IV & NIV VISA PROCESSING

In order to safeguard the traveling public and utilize the latest biometric identification techniques, all applicants must present full-face photographs, taken against a white or off-white background, showing the entire, uncovered head. Applicants who wear a head covering or hat for religious reasons may continue to do so, but only if that head covering does not obscure any portion of the face.

Please ensure that your passport photographs meet the following requirements:

1. The two identical photographs must be an *unmounted* full face photo *(taken within the past six months)* 2 by 2 inches (5 cm x 5 cm) in color against a white or off-white background.

2. Sunglasses or other paraphernalia, which would detract from the face, are not acceptable. A photograph of a person wearing a head covering is permitted, but only for persons who do so for religious purposes, and provided that enough of the face is uncovered to establish identity. A photograph of a person wearing a traditional facemask or veil that conceals portions of the face and does not permit adequate identification is not acceptable.

3. An individual photo is required. Group photos are not acceptable.

4. It is particularly important that the photo be recent and clearly in focus. It is vital that the background be white or off-white. Photos taken in front of busy, multi-colored, patterned, or dark backgrounds will not be accepted.

5. A "full face" photo is one in which the applicant is facing the camera directly. The applicant should not be looking down or to either side. The face should cover about 50 percent of the area of the photo. It is preferable that the ears be exposed. The key requirement is that the photograph clearly identify the applicant.

6. The photograph should measure 2 inches square (roughly 50 mm square) with the head centered in the frame. The head (measured from the top of the hair to the bottom of the chin) should measure between 1 inch to 1 3/8 inches (25 mm to 35 mm) with the eye level between 1 1/8 inch to 1 3/8 inches (28 mm and 35 mm) from the bottom of the photo. Photos should be printed without borders.

7. Photos of members of the military, airline employees or other personnel wearing hats are not acceptable.

8. Digitally-altered photographs will not be accepted. This includes alterations of color or pattern in the background of the picture. Photographs that are out-of-focus, air-brushed or otherwise substandard will not be accepted. Digital photographs must be of sufficiently high resolution that the pixels are not visible.

9. Smiling in the photograph is not against the law.

As you prepare for your upcoming immigrant or diversity visa interview, we wanted to inform you about a new passport pass-back program we are implementing on May 8, 2016. We will be using a local courier to return your passport(s) to you after visa issuance to a local post office either in Dubai or Abu Dhabi. Please visit https://ais.usvisa-info.com/en-ae/iv prior to your interview date to register and select a courier location. Each person in the case should be included in the registration.

Please note that if your case has administrative processing, you would be able to send us your passport from the same post office location, without having got travel to the U.S. Embassy in Abu Dhabi, as long as you have registered prior to your interview date. We have attached information on how to register to this email.

For registration related inquiries, please contact the CSC office at: https://ais.usvisa-info.com/en-ae/iv/information/contact_us

Thank you and we are looking forward to meeting you on the day of your interview,
