Medical Exam Instructions

All immigrant visa applicants, regardless of age, require a medical examination prior to the issuance of a visa. Only a physician accredited by the U.S. Embassy can perform this exam. **It is your responsibility to schedule a medical exam with one of the doctors on the attached list before your visa interview** at the U.S. Embassy in Jerusalem. Medical examination results from other physicians will not be accepted. Please click on the button below to see a list of approved physicians and fees.

[List of Approved Physicians](#)

Items to bring to your medical examination

You should bring the following items to your medical exam:

- Your visa interview letter,
- Your passport, identity card, laissez-passer, or other travel document,
- Four (4) recently taken passport-sized color photographs only if your case is not digitally processed.
- A "panel physician statement" form, which you can [print on page 9](#) of this document,
- Your medical history record,
- Any prior chest x-rays you've had taken, and
- A copy of your immunization records, including evidence of receipt of the full series of Covid-19 vaccine.
- DS-260 confirmation page

You must pay all medical examination fees, including x-ray and blood test fees, directly to the examining physician. A list of current fees is available [below](#).

During the medical exam

The medical examination will include a medical history review, physical examination, chest X-ray, as well as blood and gonorrhea tests (for applicants aged 18-24 years), and Syphilis tests (for applicants aged between 18-44 years). The United States also requires tuberculosis (TB) testing for all applicants two years of age and older. Please be prepared to discuss your medical history, medications you are taking, and current treatments you are undergoing. More information on general medical requirements for U.S. immigrants is available [the Centers for Disease Control and Prevention's website](#).

U.S. immigration law requires immigrant visa applicants to obtain certain vaccinations, including an approved Covid-19 vaccination, prior to the issuance of a visa. Current immigrant visa vaccination requirements are available [CDC.Gov](#). You can also read Frequently Asked Questions about our medical examination requirements [Travel.State.Gov](#).

After the medical exam

When your examination is completed, the doctor will either provide you with exam results in a sealed envelope (if your case is not digitally processed) or send them directly to the U.S. Embassy in a digital format. Any x-rays taken will also be given to you on a CD-ROM. **IF GIVEN AN ENVELOPE TO CARRY TO YOUR INTERVIEW, DO NOT OPEN THE ENVELOPE THE DOCTOR GIVES YOU. Instead, bring the envelope and x-ray CD-ROM to your visa interview**, along with a signed statement from the doctor and radiologist, which you can [print](#).

If you receive a CD-ROM with x-rays, you must carry them with you when you travel to the United States for the first time. The medical report must be less than six months old when you enter the United States as an immigrant.

Interview Guidelines

Translations and submitting documents to the embassy

Any documents that are not originally in English, Arabic, or Hebrew must be submitted with an original, certified English translation. All civil, police, and court documents should be original, and you must submit a photocopy of each document.

Rescheduling or cancelling your interview

If you are unable to attend your appointment, please reschedule your appointment "[here](#)". DV applicants should be aware that visas are numerically limited and must be issued by September 30 of the program year, and there is no guarantee that a visa will still be available on the date of your rescheduled interview. Please carefully consult the [Visa Bulletin](#) before you request to reschedule your interview.

Security screening procedures

All visitors to the U.S. Embassy in Jerusalem must follow certain [security procedures](#). To avoid delaying your entry and that of those in line behind you, please bring only what is required for your interview.

Accompanying persons

The following persons may accompany a visa applicant to their interview:

- Interpreter: Applicants may bring one interpreter if they do not speak English, Hebrew, Russian or Arabic well enough to participate in an interview.
- Special Needs Visitors: Applicants may bring one person to help if they are elderly, disabled, or a minor child.

Attorneys or adult family members who are not part of your petition are not permitted to accompany clients into the embassy.

Immigrant visa fees

If you have not paid all required fees to the National Visa Center, please be prepared to pay these fees on the day of your interview. All fees may be paid in either U.S. dollars or Israeli shekels and only can be paid in cash or international credit cards. *Please note that if you are found ineligible to receive a visa, the application fee cannot be refunded.* A complete list of fees can be found [here](#).

Do not make travel plans outside of Israel

If your visa is approved, we will keep your passport at the embassy while we prepare your visa packet and print your visa. We will return your passport to you later via the courier service that you have selected online in [Step 1](#).

After Your Visa Interview

A consular officer can make a decision on a visa application only after an interview. ***There is no guarantee that you will receive a visa.*** Do not sell your house, car or property, resign from your job or make non-refundable travel arrangements until you have received your visa.

If more information is needed

Sometimes a consular officer is unable to make a decision on a visa application because he/she needs to review additional documents, or the case requires further administrative processing. When additional documents are requested, the consular officer will give you a refusal letter that asks you to submit additional documents. The letter will include instructions on how to send those documents to the embassy.

The timing of administrative varies based on the circumstances of each case. You may check the status of your case [online](#).

After your visa is approved

- **Passport, Visa, and Sealed Immigrant Packet** – We will place your immigrant visa on a page in your passport. Please review your visa to make sure there are no spelling errors. If your case was not electronically processed, we will also give you a sealed envelope containing documents that you must give to U.S. immigration authorities when you arrive in the United States for the first time. ***Do not open this envelope. You must carry it with you. Do not put it in your checked luggage.*** If you receive X-ray CD-ROMs during your medical examination, carry those with you as well. If your visa contains the note “IV DOCS in CCD” then you will not receive this package and your documents have been transmitted electronically. If you receive X-rays during your medical examination, carry those with you and give them to the U.S. immigration authorities.
- **USCIS Immigrant Fee** – All individuals who are issued immigrant visas overseas must pay an [Immigrant Fee](#) to U.S. Citizenship and Immigration Services (USCIS) *prior to traveling* to the United States. This fee is for processing your residency status and printing your Permanent Resident Card. Children entering the United States under the Hague Process, returning residents, and fiancé(e) (K) visa holders are exempt from this fee.
- **When You Should Travel** – You must enter the United States before the expiration date on your visa. Your visa cannot be extended, and all fees are nonrefundable. The principal applicant must enter before or at the same time as other family members with visas.
- **Green Card** – Your Form I-551 Permanent Resident Card, also known as a green card, will be automatically mailed to the address in the United States that you enter on your visa application form. This is a very important document that proves you have permission to reside in the United States. *If you plan to travel outside the U.S. before your green card arrives:* Please consult [USCIS’s](#) and [CBP’s](#) websites for rules about what documents you need to re-enter the country. We also recommend you check with the airline to ensure you are in compliance with their rules. *Once your card is issued, you should not stay outside of the United States for more than one year. If you do, you may lose your status as a Lawful Permanent Resident.*

After Your Visa Interview

- **Children's Issues** – Children are required to have certain vaccinations before they can enroll in school in the United States. Therefore, we recommend that you bring your child's complete vaccination records with you to the United States. If your child is adopted, you have full custody as a result of a divorce, or you share custody with the child's other parent, we recommend that you bring a copy of all applicable adoption or custody papers from the authoritative court in your home country.
- **Information for New Immigrants** – Please visit the USCIS web page for helpful information on moving to the United States. You can read "<https://www.uscis.gov/sites/default/files/document/guides/M-618.pdf>

Diversity Visa (DV) Applicants – Additional Information

If you are interviewing for a Diversity Visa (DV), all of the above instructions apply to you. Please schedule and attend a medical examination prior to your visa interview; enroll in the required courier service; and gather the required documents.

*Below are additional instructions that apply **only** to DV applicants.*

Bring to your interview

In addition to the documents listed on the [Pre-Interview Checklist](#) in this package, DV applicants should also bring the following items to your visa interview:

- Appointment information printed from the “Entrant Status Check” on the [E-DV website](#).
- Documents showing that you have either a qualifying high school education or two (2) years of qualifying work experience in the five (5) years immediately prior to application (for the principal applicant only; more information is available [online](#)).
- Payment in cash or international credit card (dollars or local currency) of the \$330 Diversity Visa Application Fee for each visa applicant. You will pay this at the U.S. Embassy on the day of your interview.

Review your DV Program entry

Prior to your visa interview, we recommend that you review the data on your initial E-DV entry.

Failure to have listed an existing spouse or children at the time of your entry in the Diversity Visa Program will result in the denial of your visa and visas for your family. Entering the incorrect “Foreign State of Chargeability” on your visa application will also result in the denial of your visas. Any fees paid to the U.S. government in support of your visa application(s) are nonrefundable. If you entered the incorrect place of birth or failed to include a child who had already been born, or a spouse to whom you were married when you entered the Program, you should not proceed with the visa application. You can review the eligibility requirements [online](#).

Medical Examination – Physician Statement

List of approved physicians

U.S. visa regulations require that all immigrant and refugee applicants undergo a medical examination prior to the interview appointment date. Medical exams must be performed by a designated panel physician (complete list available below). These physicians have been approved by the U.S. Centers for Disease Control and as such, they are the only doctors authorized to complete the required medical exam required for immigration or refugee processing.

Most medical examinations are processed digitally, with the exception of fiancée (K1) and diversity cases (DV). In those cases, the panel physician will complete several forms, including Form DS-2054, Medical Examination for Immigrant or Refugee Applicant, Form DS-3026, Medical History and Physical Examination Worksheet, and Form DS-3025, Vaccination Documentation Worksheet. In addition, all applicants over the age of 15 will be required to have a chest x-ray (Form DS-3030, Chest X-Ray and Classification Worksheet) and blood tests as part of their medical examination. If you have specific questions or concerns about the required medical examination, please contact the panel physicians directly.

Blood serology	NIS 100 to NIS 200
Gonorrhea	NIS 270 to NIS 340
Chest x-ray (required for all applicants over 15 years of age)	NIS 110 to NIS 240

Fees include value added tax (VAT).

All fees noted above as well as costs of any **additional examination and vaccinations** which the doctor **deems medically** necessary are the sole responsibility of the individual applicant. Price ranges are due to the varying costs of service in different geographical locations.
